I spoke to LeBel. They still maintain no need for RCMP in QC. I mentioned Gatineau and how they would need to coordinate with municipal, Sûreté and OPP... I explained national invocation as necessary for financial measures to be effective. She agreed that unique element might require national implication—and she asked that Lametti call Jolin Barette to go thru that specific element. She felt consultation was overall inadequate as we didn't give details of how and where these various measures would apply... Can we reach out to Lametti asap? Dominic
